## **Building bridges at the potter's market Keramikpanorama Murten (Fribourg), September 3rd and 4th, 2016**

*Ependes, June 14th, 2016* – The Keramikpanorama Murten will already take place for the third time. On September 3rd and 4th, 2016 the Pantschau near the lake of Murten will become a meeting place with a unique and informal atmosphere. We will bring together visitors and ceramic-artists, art-lovers and designers and national and international pottery. **Around 100 potters, designers and artists will present their work. Free admission for everybody, Saturday and Sunday 9am – 6pm.**

More than 170 potters from all around the world applied from January until March 2016. Jury-President Maurizio Ferrari (experienced potter from Kerzers) with his jury-members Sandro Godel (artist from Domdidier) and Martine Seymour-Odier (Winner of the public price 2014) carefully selected anonymously 100 potters to be seen in September.

„Potters from 15 countries will come to Murten this time. We are very excited that so many potters from abroad are travelling that far. And of course it shows that we already have an excellent reputation in the ceramic business.“, says Peter Fink, President und Founder of the Keramikpanorama. Exhibitors live in Belgium, Bulgaria, Germany, United Kingdom, Estonia, France, Netherlands, Italy, Japan, Austria, Poland, Slovakia, Slovenia und Hungary.

The main part of the market is on the Pantschau next to the lake. In addition we have a few partner-stores and galleries that show objects made of ceramic or clay right in the middle of the town Murten. For example the Museum Murten. And some exhibitors/potters feel inspired to pick up the topic of Elefanticum Murten and create objects combined with that.
