

keramik panorama céramique

Christmas greetings

Dear ceramicists, dear friends of the Keramikpanorama

The year is drawing to a close - cancelled courses and markets, postponed events, closed studios... 2020 was probably not an easy year for any of us. We hope you are well and that you were able to pursue your passion.

The Keramikpanorama 2020 also had to be postponed. We have been struggling with ourselves for a long time what to do. In the end, we decided to hold the next Keramikpanorama on **4 and 5 September 2021** in Murten. There will be no new call for entries for this event, but the exhibitors selected last spring will be presenting their work in 2021. We hope you are as excited as we are!

The theme for 2020 "Bitte berühren - Touchez svp" - please touch - suddenly took on a completely different meaning and unfortunately it no longer made sense to stick with it. After 2020 we all need "**Frische Luft- Bol d'air!**" - fresh air - that is therefore our theme for 2021.

By the way, we regularly present the work of the selected exhibitors on Facebook and Instagram. So it's worth taking a look at them and shortening the waiting time until September 2021 a bit.

Due to the postponement, after 2021 the next Keramikpanorama will take place in 2023.

We wish you a wonderful Christmas season and best wishes for the new year.

On behalf of the entire Keramikpanorama Committee,

Peter Fink, President of Keramikpanorama
Tina Böhm, Event Manager
